### RELEVANT EXPERIENCE

#### Clear Dark Sky

*Team Lead, Remote Group Front-end Project*

- Worked with a team to create a stargazing conditions website.
- Created and updated the team's task list.
- Coordinated and held team meetings using Zoom.
- Used HTML, CSS, and JavaScript to create the landing and About Us pages.

#### Scene It

*Class assignment*

- Created a website that can search for movies and allows the user to add them to a "watchlist."
- Rendered data pulled from the OMDb API.
- Utilized local storage to store user's watchlist selections.

#### Hero vs. Villain

*Class assignment*

- Created a web page game using ES6 classes.
- Practiced using Object Oriented code.
- User is prompted to enter names and weapons.
- A comment about the fight is randomly generated for each "hit."
- Added a "dark mode" toggle that changes the color scheme of the page.

#### Gift Getter

*Personal Project, In-Progress*

- Creating a website that will ask the user questions and return gift suggestions.
- Designing elements with Bootstrap.
- The goal is to pull products from an API for the gift suggestions.
